

FY 2025

Iron County Budget

Lucas Little, Iron County Auditor

Executive Summary

As the 2024 year comes to an end, we saw the economy face higher but stable interest rates throughout the year. Inflation was much lower this year than in previous years. The economy remained stable throughout the year even with some economists expecting a significant recession this year. Many revenue sources fluctuate based on the economy, which impacts the county budget. Sales tax is affected the most, but it remained stable and will end the year close to what was budgeted for 2024. Building permit revenue increased in 2024 after the significant dip in 2023. Most of this is due to new large commercial projects in Iron County, with new home building remaining stable as well.

The cost of materials and supplies were more stable in 2024 after significantly increasing over the last few years. The biggest increase to the 2025 budget will be increasing insurance costs, this had a major impact when preparing the budget. Because of steep inflation since 2020, Iron County approved an increase in property taxes in the general fund for the first time since 2003. In order to continue to operate the county while facing these price increases, the tax increase was necessary. Inflation has not only impacted citizens and businesses, but the county budget as well.

In July of 2022 the Iron County Commission reinstated the Step-in-Grade salary program, which retroactively brought all employees up to the step coinciding with their years of service. Starting January 2024, the first step went into effect, which is 1.5% per step. The 2025 budget included the second step, along with a cost-of-living adjustment of 1%.

A major change in the budget for 2025 is the construction of the new Sheriff's Complex. As construction continues over the next few years, the biggest expense included in the budget will be towards this new facility. Funding for the project was secured through a sales tax increase of .3%. This source was available after the state legislature passed a bill during the 2024 session. This funding source will pay the bond payments for the bond that was issued to fund construction. The county had also saved up over 20 million during prior years that will go towards this project.

Iron County is on a calendar year budget. Every year there is an audit performed by an outside accounting firm after the year ends, usually this occurs in May. By the end of June, the completed financial statements and audit report are posted on the county website and the state auditor website. Last year the audit report showed that Iron County is in a solid financial position due to fiscally conservative management over the years.
