GENERAL

This website is maintained and operated by Iron County of Utah.

Iron County respects the privacy of every individual who visits our websites. This Privacy Statement outlines the information Iron County will collect and how Iron County will use that information.

PERSONALLY IDENTIFIABLE INFORMATION

When you visit Iron County websites, we will not collect any personally identifiable information about you (such as your name, address, telephone number, parcel number, property account number, or e-mail address) unless you provide it to us voluntarily.

Iron County agencies may request personally identifiable information from you in order to provide requested specialized services, but such information is handled as it would be on an in-person visit to a county office.

Should you wish not to provide any personally identifiable information, you may utilize the services by using the appropriate non-electronic means.

Access to personally identifiable information in public records at state and local levels of government in Utah is controlled primarily by [Chapter 2, Title 63 of the Utah Code](#), entitled the [Government Records Access and Management Act \(GRAMA\)](#). Information that is generally available under Chapter 2 – and not made confidential elsewhere in the Utah Code – may be posted for electronic access through Iron County websites. While Chapter 2 sets the general policies for access to government records in the state of Utah, other sections of the Utah Code as well as other federal laws also deal with confidentiality issues.

Email addresses and phone numbers obtained as a result of a request to the County site will neither be sold nor given to private companies for marketing purposes. The information collected is subject to the access and confidentiality provisions of Chapter 2, other applicable sections of the Utah Code or federal law. Email or other information requests sent to the Iron County website may be maintained in order to respond to the request, forward that request to the appropriate agency, and/or communicate updates.

The IP (Internet Protocol) numbers of computers used to visit this site are noted as part of our statistical analysis on the use of our website, so we may better design services and improve access to them. However, the site does not attempt to gain personally identifiable information on individual users and associate them with IP addresses.

Iron County will not give your personally identifiable information to any outside organization unless required by law.

REGARDING YOUR PERSONALLY IDENTIFIABLE INFORMATION

If you have submitted personally identifiable information through an Iron County website or if someone else has submitted your personally identifiable information through a Iron County website, and you would like to have that information deleted from our databases, please contact us.

SECURITY

Iron County is committed to keeping secure the data you provide us with and will take reasonable precautions to protect your personally identifiable information from loss, misuse, or alteration. Iron County employs industry standards in securing this information.
